Residents voice concern over dropping lake level

By Emily Shipe
Clewiston News reporter

The Corps of Engineers held a public meeting on the Lake Okeechobee Regulation Schedule in Clewiston Monday night.

No questions were asked, but many people came with prepared statements. Some were there on their own behalf as business owners.

The meeting was held at the Clewiston High School and had a good turn out from Glades residents.

Gail Bird from Stuart, voiced concern on the economic impact low water levels would have in the area.

Likewise, Roland Martin, of Roland Martin's Marina in Clewiston, showed concern for low water levels and how it impacts the business at his marina. He said the yachts that frequent his establishment need the higher levels of water.

As a sportsman and professional fisherman, he also supports the higher levels of Run 25. Mr. Martin feels more concern should be shown for water quantity.

Paul Larsen, an environmental engineer from Miami repre-

senting the Florida Sugar Cane League, told the group he doesn't feel water should be released into the ocean and when water is available, it should be stored in the lake. He said he felt the schedule needs to be more flexible.

Major Hal K. Alguire, deputy district engineer, from Jacksonville and James Vearil, chief of hydrology and meteorology, ran the meeting.

The purpose was to give all interested parties an opportunity to give their opinions and ask question about the proposed continued use of Run 25, as the Lake Okeechobee Regulation Schedule. All comments were recorded and will become part of the official transcript of the meeting.

Run 25 was adopted in 1992 to continue for a two year period. Since that time period is up, public hearings were again needed before approval for continued use is given. Run 25 replaced Run 22 which was instituted in 1978.

The Run 25 schedule does not significantly impact water supply, or lake stages, but it does reduce the occurrence of large discharges of water to

the estuaries. It is similar to the 1978 Regulations Schedule in that regulatory releases occur at relatively high lake stages from 15.65 to 16.75 ft. compared to 15.5 to 17.5 ft. The largest difference between the new and old schedule is that regulatory releases to the estuaries occur in a more graduated fashion. These releases mimic the natural pulse of runoff from a rainstorm.

Several lawyers representing many of the larger local corporations in the area spoke for their clients. Everyone supported the continued use of Run 25, except for Philip Roland, Hendry County Commissioner. He stated he would like to see the return of the 1978 schedule. Though the support of Run 25 was overwhelming, most want it as an interim measure while the State and Federal Supply Planning Processes continue their studies.

For people who would like to give their comments, there is a 15 day comment period where you can mail your thoughts to: U.S. Army Corps of Engineers, P.O. Box 4970, Jacksonville, FL, 32232-0019, or call (904) 232-2235.

Resident alleges South Bay police officer unjust in his actions

Mayor orders investigation of allegations of police brutality

Clait said officers forcibly threw him to the ground and arrested him. He said they sprayed him with the Pepper Spray and when he asked for something for the irritation and burning, he was refused. Clait also said he was not given anything for the burning for about three hours after the incident.

Clait also alleges the police officers used profanity and excessive force when dealing with him.

Clait was booked into the Palm Beach County Jail and released under \$1,000 bond.

Larry Konchellah, president of the NAACP Glades Branch, told the citizens of South Bay to remain calm until a complete investigation is done. He said he had spoken with South Bay Mayor Clarence E. Anthony and the mayor assured him there would be an investigation. He also urged people not to resist an arrest by any police officer. He said it only makes matters worse.

Mr. Konchellah spoke with the mayor and the commissioners and urged them to send their officers through Cultural Sensitivity Workshops.

South Bay Vice Mayor Basil Anderson said, "I am not disbelieving what they (citizens) say but I am not going to accept them as the total truth" until the investigation is complete.

Referring to Clait, Mr. Anderson said it is a very unfortunate situation but "if the police have done anything wrong we will deal with them accordingly." He said there have been instances where officers have been suspended and/or terminated for unfair behavior.

Mayor Anthony said results of the investigation should be available by the May 17 commission meeting.

Candidate opens office in the Glades

Independent candidate Bill Tyson, who is running for the District 6 County Commission seat currently held by Ken Foster, has opened an office in Belle Glade. He has also opened an office in Wellington.

"It was important to me to open a Glades office first, to drive home a point. Glades residents pay an awful lot of taxes, but see very little in return," said Mr. Tyson. "I want to break the train of

thought within our commission that the Glades is the 'step child' of Palm Beach County. It is time that the Glades receive their fair share," he added.

The office is located at 521 S.W. 16th Street, Suite 105, inside Depot Services.

The telephone number is 992-8078. Mr. Tyson said "I will be available to Glades residents on Wednesday. Please call 992-8078 for an appointment."

Emission testing

Yes. My Speak Out is about emission testing. I just waited in line for an hour and a half. The birth date of the person whose name the car is registered in is the very first day of the month.

I had to not only pay a late fee at the tag office but I had to pay a late fee on two cars at the emissions place.

I waited in line an hour and a half. When it was my turn, another car had to be retested which made me have to back out, off the scales and let him have another turn.

To make it all worse, after I was finished and passed the test, I was asked to park because they did not have change to give me back from my money.

I think this is unrealistic and unfair. We should not have to do emissions if they can only get out here two days a week. From 8:30 a.m. to 5:30 p.m., are most people's business hours, which is their operating hours. You have to take off work and be inconvenienced to do this and then they don't even try to accommodate you.

Editor's note: We received two calls on the same subject which were unsuitable for Speak Out because they related to in-house problems at a private institution. Be assured, however, that we did contact the administrator of this business and relayed your concerns. He is following up on your complaint.

Newspaper failing to cover senate campaign

I was just going through some back issues of The Sun newspaper. My wife and I have been out of town on vacation. I noticed that you failed to mention in your paper the candidate who is the best choice for Belle Glade and for all of us

out here in West Palm county, and that is Al Coogler.

Coogler, (my understanding, was at the wonderful festival we had out in Belle Glade and I tell you, it's somebody that we need in the United States Congress.

At the Black Gold Jubilee, Al Coogler stood out there and shook the hands of people and took the time to meet all of us and talk about he fact that he is the only person that is not a professional politician and is going to cut federal spending, which is the most important thing of all.

I think The Sun newspaper did a great disservice to our next congressman who will be running in Tom Lewis' open seat - Al Coogler. He's a fine man. He's a farmer, he comes from a long generation of Florida families and somebody we need to send to congress. It certainly isn't a professional politician and I'm sick and tired of constantly hearing from state house, state senate, climb up the ladder politicians who run for the United States Congress. I think Al Coogler is a breath of fresh air and someone we need. Thanks.

Editor's note: It is still very early in the campaign and we have not written stories on any of the candidates running for the U.S. Senate. We cannot, and do not try, to compete with the dailies, which do a good job of covering state and national news.

Our goal is to give as much in-depth coverage of the news that happens in Belle Glade, Pahokee, South Bay and Canal Point as possible. With our limited staff, we find this enough of a challenge.

Our loyal readers understand this, and many subscribe to our paper for their local news and also read the daily newspaper for the county, state and national news.

Editors note: The POLICE NEWS in this newspaper lists arrests, not convictions, unless otherwise stated. Arrested persons who later are found not guilty or have had the charges against them dropped are welcome to let us know. We will confirm the information and print it.

Letters to the editor

Dear editor:

I am writing concerning the lack of traffic patrol on N.E. Second and Third Streets and N.E. Avenue B. People speed down these streets as if they were a highway.

About two months ago I was walking my baby outside and had to jump off the road into a yard to keep from getting hit by a car that was speeding around the corner. The car never slowed down to see if we were okay or not.

I called the police because that same car is always speeding down these streets. The police came out and were very nice and spoke to the driver of the car. They said they could not give him a ticket though because they didn't actually see it happen.

Chief Miller had flyers distributed about speeding and said he would put some guys out in the neighborhood for traffic patrol. I never saw one cop carrying out that promise.

Now we have stop signs that have been put up to help with speeding. Great idea, but it's not helping! It is causing more dangers because most people do not stop.

Tonight I was riding bikes with my baby girl and husband when we were approaching one of the stop signs on N.E. Third Street. We were coming up behind a car that was stopped when another car sped up behind us, swerved towards us and passed the car at the stop sign. This is ridiculous!

If the police can't do anything to these people unless they see them do it, then they need to be out here issuing tickets. A person should be able to go outside to walk or ride and not have to worry about being killed by careless drivers.

I suggest that the police department get out here in this neighborhood and do exactly what they did on Airport Road. Until something like this happens the problem is going to continue to get worse.

I don't want my daughter to be the one that gets killed to finally get something done about this very serious problem.

Sincerely,

Sherrie Dulany
Belle Glade.

Michael R. Miller, director of public safety/chief of police responds:

I share Mrs. Dulany's concern for public safety and I respect her courage and convictions. I have spoken with her and we are developing an enforcement protocol to attack the problem as identified.

I want to assure the citizens of my complete cooperation in all matters of mutual interest.

P.S. Citizens take notice, traffic safety is everyone's responsibility. Let's make Belle Glade a safe place to live.

Dear editor:

I wish to comment on the article appearing in the *Gainesville Sun* on April 23, 1994 concerning the Kissimmee River restoration.

In early 1950 I joined the research staff of the Everglades Experiment Station in Belle Glade. In late 1950 I was interviewed by a man from the Corps of Engineers doing a feasibility study on flood control on the Kissimmee River. I explained to him in scientific agronomic terms just what would happen if they did that.

However, I had no political clout. I did not own land in the valley; I was just an egg-head from the University Experiment Station.

So they went ahead and spent some 300 to 400 million dollars of taxpayers' money and did it.

According to the article in the *Gainesville Sun*, in five years after completion, they realized their mistake. It has taken over 25 years to get around to doing something about it.

Now they are about to spend another 350 to 400 million dollars to put the river back as close as possible to what it was.

My advice in 1950 would have saved the taxpayers 700 to 800 million dollars, because I told that man emphatically and in no uncertain terms to leave that river alone! Don't touch it!!

Thank you,

As a former student of Christian Day School I would like to send my own heartfelt thanks to Ms. (Robin) Waggoner for all your hard work and dedication to the students and choir.

I have a lot of wonderful memories that I will cherish forever. The love and friendship that I gained will also remain. You helped mold me into the kind of person I want to be.

can expect to cooperate better with each other someday.

As great as it is to have good leaders, people should not expect leadership alone to solve all problems. A better society is not comprised of better leaders, but of better people.

Individuals commit admirable and reprehensible acts, with or without the presence of leaders. There are good police officers, and there are those who seem to enjoy beating up on the Rodney King of the world.

We can all hope and pray for good leadership to help America overcome prejudice, but the

most important battles will occur in your own back yard. What is most important for brotherhood among all men, is not the words that politicians and preachers profess. Real fellowship begins with the people you see every day.

So the next time you find yourself admiring or praising someone you see on the news, why not commit to letting your own actions become praiseworthy? Prejudice and fear can be quashed by example. Make a difference in the world by respecting your friends, your coworkers, your neighbors, and yourself.

carried over to our every day operations here in our community.

As mentioned before, the Red Cross is a volunteer organization and because of this we need people like you. Here in the Glades community we offer a wide range of programs from our food pantry, to CPR and first aid courses taught at your company, but without volunteers these programs cannot continue.

Citizens from all walks of life, office managers, school bus drivers, store owners, and even students can assist the Red Cross by being a part of our volunteer team.

By becoming a member of our Disaster Action Team (DAT) you are the support beam to the unfortunate victim of a disaster by assisting them with temporary shelter, food and clothes. CPR and first aid instructors teach the skills that can save the life of a family member, friend, or co-worker. Lending your ears to a nervous mother or wife of a service member when his unit was called into active duty and she hasn't heard from him for two or three weeks, is what is needed from a service to military case worker. Anyone who has a few hours a week or month can help the Red Cross.

It doesn't even have to be during our regular office hours, it can be as weekend or evening case workers or as a DAT

member.

As you read this, think of how happy you were when you handed your mother those flowers or candy on Mother's Day and the smiles, and think of how after the flowers have wilted and the candy is gone you can bring those smiles to the face of someone every time you volunteer for the Red Cross.

We would like to also take this time to express thanks to the volunteers who help to carry out the programs of the West County Service Center.

We would also like to extend an open invitation to come to our office located at 220 South Main Street in Belle Glade, and spend a day, or have us come to your company staff meeting, or your club meeting, and learn first hand what we do and how you can help. Volunteers are the heart of the Red Cross and the Red Cross is a vital part of the community.

If you have questions, comments, or you would like to set up a presentation please feel free to call (407) 992-9703, we would be glad to help. Thank you and we hope to see you soon!!

tury, nurses will be more technically proficient. The nurse will need to be cost conscious, and cross trained to increase marketability and credentialing to insure our viability.

Nurses have always prided themselves on their ability to be multifaceted and adaptable in an environment that is always fluctuating. With this in mind, the future can only hold promise as the opportunity for improvement abound.

Nurses have always been patient advocates. Now, in addition, we must be economists, analysts, strategic planners, and models of a service orientation to compete effectively. That brings us to the paradox we now face: the need to expand health care services versus the shrinking health care dollar.

Health care reform is knocking at the door and our response will be the ultimate quality indicator.

Even now the winds of change are finding directions and trends are emerging. For example, the fastest growing segment of our population is over 100 years of age. We are

living longer, and with that comes redirected focuses.

Americans will become more self-directed with their health care. They will be looking to themselves to become their mentors.

With all the changes in store, it would seem an ideal time to reflect once again on the words contained in: "The Nightingale Pledge".

"I solemnly pledge myself before God and in presence of this assembly: To pass my life in purity and to practice my profession faithfully. I will abstain from whatever is deleterious and mischievous, and will not take or knowingly administer any harmful drug. I will do all in my power to elevate the standard of my profession, and will hold in confidence all personal matters committed to my keeping and all family affairs coming to my knowledge in the practice of my profession. With loyalty will I endeavor to aid the physician in his work and devote myself to the welfare of those committed to my care."

National Nurses Week May 6-12

Challenges abound for nurses as we examine the future of health care.

Home health care will play an important part in this care. Many patients who once recuperated in the hospital will be cared for in the comfort of their own homes. As a result, hospital's concept of patient care will change. An increased acuity of the hospitalized patient will be seen.

The consumer will be provided with a diverse and more cost effective way of receiving health care.

Continuous quality improvement has forced the nurse to meet the patient one on one, the same customer who is sicker than ever before with more demands.

Host families needed for foreign students

Foreign high school students will be arriving soon into the Belle Glade area for the academic semester and year home stays, and the sponsoring organization needs a few more local host families.

According to Pacific Intercultural Exchange (P.I.E.) Executive Director, John Doty, the students are all between the ages of 15 and 18 years, are English-speaking, have their own spending money, carry accident and health insurance, and are anxious to share their cultural experiences with their new American families. As there are no "typical" host families, P.I.E. can fit a student into just about any situation, whether it be a single parent, a childless couple, a retired couple or a large family.

For the upcoming programs, P.I.E. has students from Spain, Germany, Poland, Russia, Finland, Argentina, Brazil, Colombia, Paraguay, Australia, New Zealand, Croatia and many other countries.

Belle Glade area families interested in learning more about student exchange or arranging for a meeting with a community representative may call P.I.E., toll-free, at 1-800-631-1818. The agency also has travel/study program opportunities available for American high school students as well.

Jump Rope For Heart

Belle Glade Elementary students will participate in the Jump Rope for Heart Program on May 12.

Students at our school along with thousands of other schools will Jump Rope for Heart. What is Jump Rope for Heart? It is a school fitness and educational program. It teaches the value of cardiovascular fitness while raising money to foot the bill for the research for heart and blood vessel disease. This program is being sponsored by our P.E. Department.

Fifth grade students sign contracts for CTBS testing

Fifth students taking the CTBS test during the week of April 18 were given the opportunity to sign a contract about their intentions to do their best on the test. The contracts were printed on neon-colored papers, and when the students signed the contracts and returned them to Mrs. Dermond, each received a badge which said "YES" in the same color as their contract. On Friday, April 22, each child who still had their badge was given the badge plus a small gift for being responsible.

Thanks students for taking your testing so very seriously and trying your best.

New landscaping business doing big jobs in community

A new landscaping business is in the Glades and their work tells everyone why they are in the business of beautifying land. They are experi-

enced in all aspects of yard work and they will clear and fill land from start to finish. Big Lake Landscaping, owned by Boots Boyer and Bill

thought we could make it."

According to the owners, their biggest job was moving a 60-70 ft. oak from Avenue G to Tabit Rd.

Both men have been doing landscaping since 1978. In the landscaping business themselves for approximately four months, the men decided to open the business because "we

thought we could make it."

According to the owners, their biggest job was moving a 60-70 ft. oak from Avenue G to Tabit Rd.

"We enjoy making the community look better," said Mr. Murray.

Those interested in the services of Big Lake Landscaping can call 996-3520 or 996-3984.

Two schools combined present program to parents

Thursday, May 5, and Friday, May 6, were very special days for the Migrant Pre-kindergarten classes at Belle Glade Elementary and Glade View Elementary. At Belle Glade Elementary Robbie Foster's pre-kindergarten class, 4-year-old students presented The Three Billy Goats Gruff and sang Barney's Song for the parents who came to their program.

The Glade View CDA instructors decided to combine their classes into one room with each class contributing to the program. The 3-year-old class with Arrissa Patterson acted out the story, Me, Too.

Antionette Ulett's class sang The Color Orange and Bob 'Til You Drop then recited the poem My Mom's Special.

Helen Pierce's 4-year-old students presented the story

of the fifth grade teachers.

Murray, is committed to their work and they "guarantee all of their work". They said they are committed to getting the work done.

Both men have been doing landscaping since 1978. In the landscaping business themselves for approximately four months, the men decided to open the business because "we

thought we could make it."

According to the owners, their biggest job was moving a 60-70 ft. oak from Avenue G to Tabit Rd.

"We enjoy making the community look better," said Mr. Murray.
